

Ecan Software Engineering Consultancy LLC
Company Presentation

28.06.2016

Ecan business areas:

- Engineering Trainings
- Engineering Solutions and Consultancy
- Engineering Software
- User Guidance System Project

Ecan business areas:

- Engineering Trainings:
 - “Best Structural Design”
 - “Design for Manufacturability”
 - “NC Programming”
 - “GD&T” (In progress)

Ecan business areas:

- Engineering Solutions and Consultancy:
 - Part and assembly design
 - Topology optimization of existing designs
 - Producibility analysis of existing designs
 - 3D modelling and drafting

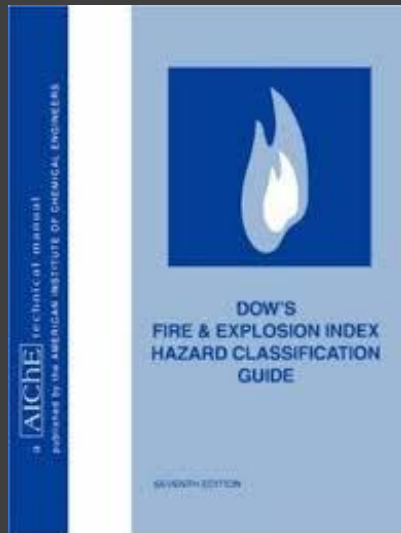

Ecan business areas:

- **Engineering Software:**

- Software solutions for engineering companies(Example: Engineering standards can be converted to software for easiness.)

✓ Finished Project for Aramis Consultancy company:

5 Hours

Loss Control Credit Factors		
1. Process Control Credit Factor (C₁)		
a. Emergency Power	0,98	Delete
b. Cooling	1,00	Delete
c. Explosion Control	0,84	Delete
d. Emergency Shutdown	0,99	Delete
e. Computer Control	1,00	Delete
f. Inert Gas	0,96	Delete
g. Operating Instructions/Procedures	0,97	Delete
h. Reactive Chemical Review	0,98	Delete
i. Other Process Hazard Analysis	1,00	Delete
Process Control Credit Factor (C₁)	0,75	

15 Minutes

Ecan business areas:

• User Guidance System(UGS) Project:

- UGS project shows people step by step how to do a job in a computer environment and eliminates “how” question. Patent application is accepted and published by United States Patent and Trademark Office.

• Degrees in contests:

- Geleceğin Patronları 2013- First ten
- Yeni Fikirler Yeni İşler 2014 – First four
- Teknogirişim 2014 – Governmental funding
- TechAnkara 2014 – First ten
- Participated in Launch Championship of Techweek Chicago

About the founder:

Candaş Urunga

- B.S. - METU Mechanical Engineering Department
- M.S. - METU Computer Engineering Department
- Engineering experience more than twelve years (Aircraft part and assembly design, analysis, manufacturing and software development)
